Fee Brothers

WHISKEY BARREL AGED BITTERS

Fee Brothers has taken the art of bitters making back a few generations with the introduction of our Whiskey Barrel Aged Bitters.

We took freshly emptied barrels used in the aging of fine whiskey and gave them new life seasoning our already popular aromatic bitters. The result is a fine blending of the bitters with whiskey/oak/char flavors to produce an absolutely premium aromatic bitters.

“Bitters were once the foundation of all cocktails. I am excited to see the attention Fee Brothers is paying to this often overlooked and extremely important ingredient. Their barrel aged bitters will be a welcome addition to their great product line.”

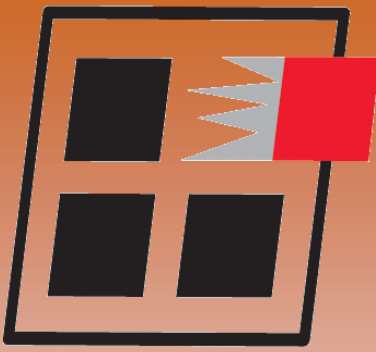

Robert Hess, cocktail historian, mixology research engineer

This is a LIMITED EDITION product bottled in the spring of each year.

All **Fee Brothers** Bitters come with a convenient sprinkler cap for easy dispensing.

Margarita Salt

This is the flaky salt that is such an important garnish for a margarita!

9oz Tub - 12 Per Case

FEE-M.SALT

MAKE YOUR OWN COLORED MARGARITA SALT

1. Pour 6 tbsp. margarita salt into a sealable plastic bag.
2. Add four drops of food coloring. You can use four drops of the same color, or you can mix different colors together.
3. Seal the bag and give it a good shake. If the color is not dark enough, add more food coloring, one drop at a time.
4. Moisten the rim of your cocktail glass with lime juice before applying the salt. The added moisture will help the salt stick to the glass.

Fee Brothers

BITTERS

Why in the world would anyone want to put something called “Bitters” into a drink? In fact, Bitters are critical in the best drinks. The first publication of a bartender’s guide which included cocktail recipes was in 1862 – *How to Mix Drinks; or, The Bon Vivant’s Companion*, by “Professor” Jerry Thomas. In addition to recipes for Punches, Sours, Slings and the like, were 10 recipes for drinks called “Cocktails”. A key ingredient which differentiated cocktails from other drinks was the use of Bitters.

Fee Brothers makes 12 flavors of Bitters as of this writing. They are:

- | | | |
|--------------------------------|--------------------|-----------------|
| Old Fashion (Aromatic) Bitters | Orange Bitters | Peach Bitters |
| Aztec Chocolate Bitters | Celery Bitters | Cherry Bitters |
| Cranberry Bitters | Grapefruit Bitters | Lemon Bitters |
| Mint Bitters | Plum Bitters | Rhubarb Bitters |

Fee Brothers Bitters have been referred to as a “spice rack behind the bar.” The effect of Bitters in a drink is to balance, round out and make more complex the flavor. Your mouth has taste receptors for sour, sweet and salty; AND it has a receptor for bitter. The more receptors a drink tickles on the way down, the more interesting the drink. You know you have used Bitters correctly when the person having the drink says, “Wow, there is something going on in the background of that drink. That is interesting.”

Consider that a slam-dunk.

People will ask, “What would you use flavored Bitters in?” The answer is, “Anything you want!” There are, of course, plenty of recipes on the internet which use Fee Brothers flavored Bitters but is is more important how people think about Bitters. It goes back to the “spice rack” theme. Turn the question around. Ask them what would they use basil or oregano in?

Fee Brothers Bitters should be presented as a group in keeping with the “spice rack” theme. While one or two flavors present alternatives for the bartender, the group as a whole sparks the imagination.

All Fee Brothers Bitters come with a dasher cap for easy dispensing.

SUGGESTED HANDLING OF GLASSWARE

FOR PROFITABILITY AND SAFETY

1 Have adequate backup supply of glass for rush periods to avoid thermal shock. Never place recently washed glasses into service. Let glass stand enough to reach room temperature.

2 Sort all items in bus tray.

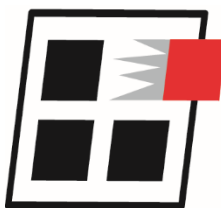

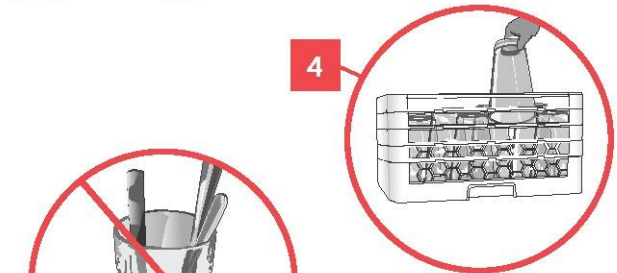

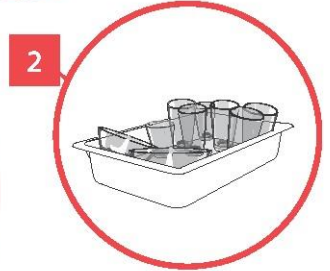

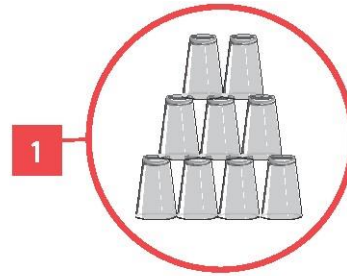

3 Always use scoop - Never scoop ice with glass.

4 Use correct racks for stems and tumblers.

5 Never put silverware into glass.

6 Never stack glasses.

7 Never pick up glasses in bouquets.

Are you using MAGNESOL?
Then try **Miracle Frying Oil Powder**

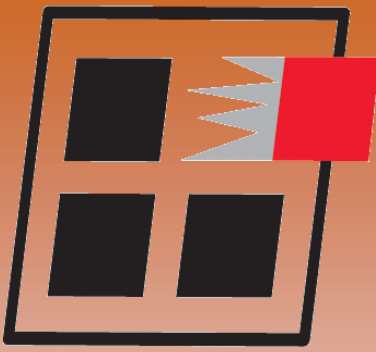

Miracle frying oil powder is magnesium silicate. Magnesium silicate is used by most major fast food companies in the filtration process to remove minute carbon particles which are a host to bacteria that attack your oil and create acidity. Miracle powder is of the highest food grade standard and is a proven method to increase the life of your oil.

Miracle Frying Oil Powder

RP-MFP40 40lb Miracle Frying Oil Powder

By using Miracle Powder daily you can *dramatically increase* the life of your oil and profits. Your oil will stay cleaner longer and you will serve maximum quality fried food from your clear odor free frying oil.

Napkins that Won't Eat into Your Profits

For foodservice and restaurant operators looking to reduce waste and costs, Cascades offers ServOne™, a one-at-a-time interfold napkin dispensing system. ServOne is:

- > **MORE ECONOMICAL:** better controls the quantity of napkins taken by patrons, reducing waste and cost for restaurant owners by up to 25% compared to traditional napkin dispensers.
- > **MORE HYGIENIC:** one-at-a-time dispensing minimizes cross-contamination. You touch only the napkin, not the dispenser.
- > **MORE ENVIRONMENTAL:** Cascades® for ServOne white and Moka® napkins are made of 100% recycled fiber and third-party certified. Their smaller case size offers a reduced environmental footprint and storage savings of up to 50% relative to traditional napkin products.
- > **MORE FUNCTIONAL:** ServOne is available in multiple dispensing options.
