ANDERSEN MATS

New Cushion Max Anti-Fatigue

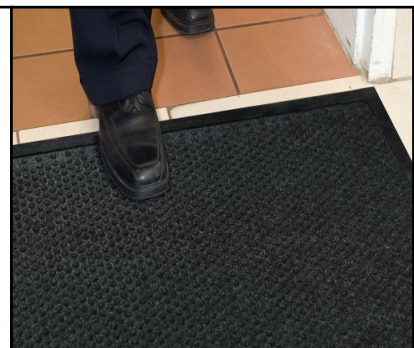

- Closed-cell Nitrile blended cushion
 - Chemical resistant, grease and oil proof
 - Diamond patterned top surface
 - Lasts 3 times longer than traditional 100% PVC foam mats
 - Tapered border provides a safe transition from the mat to the floor
 - 5/8" thickness
 - Available with or without holes
- Recommended for industrial for wet and dry areas such as kitchens or industrial areas**

** Available in a variety of Sizes **

Waterhog Mats

- 24 oz.sq/yd solution-dyed polypropylene fabric is highly stain resistant
- 3/8" thick bi-level surface effectively removes and stores dirt and moisture beneath shoe level between cleanings
- Unique "Water Dam" allows the Waterhog mat to hold up to 1 1/2 gallons of water per square yard, water and dirt stay on the mat
- Recommended for commercial buildings, hotels, restaurants, healthcare facilities, office buildings and more.

Comfort Mate Anti-Fatigue

- Grease-resistant
- Ramp borders for smooth transition from mat to floor
- Designed with large holes for maximum drainage
- Recommended for kitchen and industrial applications

White Deli Containers

Why White?

White polypropylene deli containers keep food fresh and tasty & prevent UV effects of food. Perfect for oily and acidic foods without taste or odor transfer. They are microwavable and ideal as take-out containers. These are perfect for restaurants and stores serving a wide variety of products, including BBQ, deli products, dried goods, soups, stews, ice cream, yogurt, Italian ice, and much, much more.

Envirofoam Plates and Trays

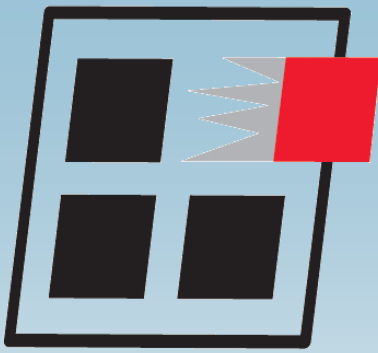

Smooth Satin Finish. Deep Design. Sturdy Design. Recyclable. FDA Approved. Does not stain or leak. Bends without breaking. Nesting feature prevent shifting while transporting. Because **EnviroFoam™** is made with non-manufactured CO2, it has a smaller cell structure. That is how we achieve our superior surface finish, and it is what makes this product so strong and flexible.

Sold Per Each

Fuller Brush Spring –Lok Wet Mop Handle

60" Long, Lightweight, adjustable, easy to use.

It Sinks!

With No Break-in... Period.

Once again, ETC has engineered an innovative, time-saving product for the janitorial industry. The time-saving, Torpedo™ wet mop, requires no break-in period before using it to mop. While other mops will actually float on liquids when you take them out of the plastic packaging, ETC's Torpedo™ wet mop will absorb the liquids immediately. No other wet mop can save you the aggravation of trying to pick up liquids on a wet floor like ETC's Torpedo™. You have to try it to believe it.

Torpedo
WET MOP
THE SINKER
it sinks

- No Break-in Period
- Quickly Absorbs Liquids
- It's Launderable
- Minimal Shrinkage When Laundered
- Less Expensive Than Pre-laundered
- 5 Colors Allow for Specific Usage

Daymark Safety Solutions

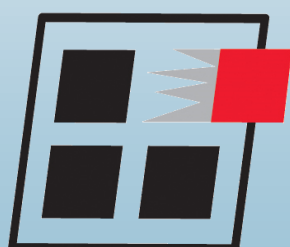

DissolveMark™ Labels assist in safe food rotation through the use of an innovative Dissolve-A-Way adhesive.

- Labels will dissolve in any temperature of water in less than 30 seconds, leaving behind no adhesive residue to harbor harmful bacteria.
- Eliminates the time spent scrubbing labels and adhesives off of containers
- working temperature range of -40° F to 176° F
- FDA-compliant for indirect food contact.

Hexarmor Cut Resistant Gloves

HexArmor® NXT 302 Cut Glove offers the perfect combination of dexterity and cut protection.

- Features the highest cut resistance available on the market in addition to innovative knife and blade-slip protection that lessens the likelihood of puncture injuries in protected areas.
- The combination of SuperFabric® with TruShield Performance protection and CoreTek materials provides 5 times the cut resistance and 11 times the abrasion resistance of traditional HDPE gloves.
- Comfortable and form-fitting, this safety glove can be worn underneath standard disposable foodservice gloves to prevent cross-contamination.
- Gloves can be sanitized or washed in a dishwasher under normal laundering conditions. Gloves are ambidextrous and sold individually.

Diamond Crystal® Glacier Melt® Ice Melter

Blended for speed and safety

Glacier Melt® ice melter contains a specially formulated blend of Magnesium and Sodium Chlorides for quick-start action.

- Works down to -10°F/-23°C
- More cost-effective than straight magnesium and calcium chlorides and melts at lower temperatures than sodium chloride (rock salt).
- Available in 50 lb. bags

Directions for Use:

Remove slush and as much loose snow as possible before ice melter application. Spread Glacier Melt® ice melter evenly across surface area. Apply ½–1 ½ cups per square yard, depending on ice thickness and air temperature, as needed. Reapply as necessary. When ice and snow soften, remove slush and any excess ice melter from pavement for good concrete maintenance.

Storage information:

- Diamond Crystal® Glacier Melt® ice melter contains magnesium chloride, which is hygroscopic, thus easily pulls moisture from the air.
- Close and reseal container tightly to keep product dry, or place in a moisture-proof container
- Store in a dry place
- Always store ice melters out of reach of children and pets
