are saying about* **SafeSeal**

"We use 16oz ClearPac SafeSeal containers

for black eyed peas and a vented 12oz ClearPac SafeSeal container for sprouted green peas and mung beans. The vented container is perfectly designed to allow the sprouts and mung beans to breathe, thereby **maximizing their shelf life**. ClearPac SafeSeal containers are also **quick and easy to close and effectively showcase our produce**." - Lee Ewing, President, Sunny Creek Farm

"Using the Safe-Seal line of plastic tamper-evident, tamper-resistant containers from Dart has allowed us to offer the same quality bulk candies to our customers, but in a much more **professional, safe** and **attractive** presentation. The **'stackability'** and **clear design** of these containers has allowed us to **profit upon the impulse driven sales** of the retail world, as well as keep our candy **fresher, longer**." - Matt Costea, Buyer, Somerset Candy

TamperAlert™

Hinge protrudes outward when torn, alerting the customer that the container has been opened. Hinge remains attached to the container, meaning no loose plastic pieces and therefore no littering.

EASY TO CLOSE

Press down on the lid with two hands for an easy ONE STEP closure!

EASY TO OPEN

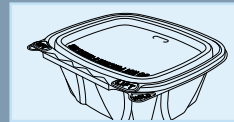

Pull apart the "Lift" and "Hold" tabs to tear the perforated hinge completely across.

EASY TO RECLOSE

Once the hinge is torn, the container becomes a LEAK RESISTANT two-piece package!
